Hi everyone!

First of all we would like to thank all of you for participating in the qualifiers! We had a lot of fun organizing them, and the atmosphere in the Discord was awesome! <3

Unfortunately, your team didn't make it to the top 60 on the scoreboard and you therefore didn't qualify of the Finals event.

Don't feel bad about not making it to the Finals though. The goal is to learn new things and I'm sure all of you were able to do that. Like each year, the competition is very strong and each year we are impressed with the skills that are shown.

In case you don't graduate this year, you can still try again next year. In the mean time, play some HackTheBox, try out some other CTFs and read up on all the writeups that will be posted soon to <https://github.com/cscbe/writeups/tree/master/2021-Qualifiers>

Hopefully until next year!

- The CSCBE Team

À moi ▾

Dear Arthur,

Thank you for participating in the CyberSecurity Challenge 2021. We had tremendous fun! We hope you did too.

At TrustBuilder, we believe that identity will be the cornerstone of cybersecurity in the years to come. Innovative companies building an ecosystem around their web or mobile application can only succeed when they actually know (in a secure and unambiguous manner), what the identity of the end user is. That is exactly what we can offer to our customers, using our cloud-based TrustBuilder.io platform.

If you are interested in a career at a scale-up company on the forefront of cybersecurity, don't hesitate to have a look at our [open positions](#) or our [Young Graduate program](#). We are looking for young, bright and motivated people, preferably with a good sense of humor 😊, to join our growing team. Can't find an open position that suits your career plan? Just drop us an e-mail at careers@trustbuilder.com, so we can see if you can join our team in another function.

We wish you all the best in the remaining months of your education, and we hope to hear from you. I look forward to building the future of cybersecurity with you.

Best regards,

Kris

Hi everyone,

Just a final email from our side.

While we did our very best to make 2021 a unique and unforgettable event, we know that there is always room for improvement. That's why we would love to know your opinions about the Qualifiers, Prefinals, CTF and CSI game.

Most questions are optional, so feel free to give feedback where you want

<https://forms.gle/RJLOSFXW44X4L1Cd6>

Finally, our sponsor Data News wants to invite you to their virtual jobfair for IT-professionals. It's free and gives you a chance to talk with multiple companies, so if you're still looking for a job for next year, be sure to join: <https://dnmatchit.be>, Thursday 29/4 from 14h to 18h

Kind regards,

The CSCBE team
